Temporary Power Connection Request

Property Information		
	Location:	
	Permit #:	Date:
	Requested by:	

The following conditions are understood and will apply:

1. The temporary connection will expire 90 days from the date when the Electrical Inspector has authorized the connection of my electrical service to the Power Company.

2. The main switch or circuit breaker will be locked off when workers are not present at the site or until such time as the house is lockable. A suitable padlock will be provided at the main electrical panel for this purpose.

3. The electrical portion of the installation will be completed and a final electrical inspection requested prior to the expiration date of the temporary connection.

4. The dwelling will not be occupied until the electrical installation is complete and a final inspection is requested and passed.

5. All work shall be installed and secured per the current state adopted edition of the *National Electric Code* and any applicable local ordinances.

6. Electrical installers assume the responsibility of securing and maintaining the electrical equipment until final completion and inspection.

Signature		
	I understand that a failure to comply with the above terms and conditions may result in the disconnection of the supply of electrical power to my house. I also understand that a failure to comply with the provisions of the *National Electric Code* and other regulations enforced by the local jurisdiction may also result in the disconnection of the supply of electrical power to my house. Disconnection and re-connection may result in additional administrative fees not included in the permitting process.
